Address: Neil Hall 101, 200 SE Waller Way, Pullman, WA 99164 USA

Education

Ph.D. in Applied Mathematics Jan 2023 – Present

Washington State University, Pullman, WA

Cumulative GPA: 3.98/4.0

Dissertation: Data-Driven Model Discovery and Reduced-Order Modeling of Governing Differential Equations using Machine Learning and Optimization

M.Sc. in Mathematical Engineering Oct 2020 – Jul 2022

Urgench State University, Khorezm, Uzbekistan

Dissertation: Research of Dynamic Systems Modeling Cyclic Processes

GPA: 4.6/5.0

B.Sc. in Applied Mathematics and Informatics Aug 2016 – Jun 2020

Urgench State University, Khorezm, Uzbekistan

GPA: 83/100

Work Experience

University Teaching Assistant, Washington State University Jan 2023 – Present

- Organized undergraduate classes and proctored exams.
- Assisted professors in preparing lectures, grading, and leading review sessions.
- Tutored undergraduates at the Math Learning Center.
- Organized office hours at the Math Learning Center.

Dare to Dream Program Teacher, Washington State University Jun 2023 – Jul 2023

- Taught interactive science lessons to graduating high school students to ease the transition to college.
- Collaborated with mentors and coordinators to deliver daily sessions and enrichment activities.
- Tracked student progress and provided individualized academic support.

Assistant Data Science Teacher, Fiscal Institute (Tax Committee of Uzbekistan, now merged to Tashkent State University of Economics) Aug 2022 – Dec 2022

- Conducted daily data science & programming lessons.
- Prepared students for national & international competitions.

Assistant Computer Science Teacher, Cambridge International University Oct 2022 – Dec 2022

- Taught fundamental computer science courses.
- Delivered lessons on Microsoft Office & computer architecture.

Internships and Workshops

-
- **Dynamical Systems for Machine Learning and AI** – SLMath Graduate Summer School, IBM Thomas J. Watson Research Center, Yorktown Heights, NY Jul 2026

Publications

-
- **Julia and Mandelbrot Sets for Multi-Dimensional Logistic Mapping**, Journal of Central Asian Problems, 2020

Technical Skills

Python (Intermediate), R (Basics), SQL (Basics), C++ (Basics), MATLAB (Basics), Microsoft Office

Honors & Awards

-
- AMS-ICM 2026 Graduate Student – NSF #2620718 Travel Grant Recipient, Philadelphia, PA (2026)
 - SLMath Invitational Award, Dynamical Systems for Machine Learning and AI Summer School, IBM Thomas J. Watson Research Center (2026)
 - Winner, Nationwide Online Math Olympiad, Tashkent (2020)
 - Academic Excellence Scholarship, awarded for ICPC contest participation and maintaining a perfect GPA, Urgench State University (2018–2020)
 - Winner, Nationwide Virtual Olympiad, Tashkent (2016)
